

Reference

During my time at Rotherham United, I was very grateful to have Graham Nicholas as my coach. From my time at Rotherham I had many coaches but personally I believe as a team and my own game we performed at a higher level on a constant basis when graham was in charge.

As a UEFA'A licenced coach, Graham was not only able to deliver high quality technical and tactical sessions but he was able to demonstrate the skills which I respected him for.

Graham has always taken time out to improve and develop my skills. During the off season, I attended individual training sessions to work on ABC's, fitness and working on my technical ability which has helped me improve my game massively and couldn't be more thankful.

As he is a Semi-Professional manager, Graham give me a chance by taking me to Garforth Town where is has continued to develop my skills and provide me with some of the best coaching, from this I have improved my all round game.

It would come as no surprise to me or anyone who has benefited from his coaching if one day I see Graham coaching at the highest level.

Jack McCarthy (Semi-Professional Player – Salford City FC)
